HINTS FOR BETTER KNITTING

STITCH GAUGE

The term "STITCH GAUGE" is the most important part of all knitting directions, since the sizing of any knitted garment is planned on this gauge. You **MUST** work to the gauge which is given or your finished work will not be the size indicated in the directions.

TO CHECK STITCH GAUGE

Cast on approximately 20 sts, using the yarn and needles which will be used for the body of your work. Work in specified pattern stitch for 3 inches. Bind off all sts. Block this knitted swatch and then, using a ruler as a guide, count the number of sts to 1 inch. If your stitch gauge is **MORE** sts to 1 inch than that given in the directions, try the next size larger needle and again check your gauge. If your st gauge is **LESS** sts to 1 inch than that given in the directions, try the next size smaller needle and again check your gauge. The **IMPORTANT THING** to remember is that the size needle used does not matter, as long as your stitch gauge is correct.

GARTER STITCH

Knit every row. It will take 2 rows to make 1 ridge.

STOCKINETTE STITCH

K 1 row, P 1 row alternately when working on a straight needle. When working round and round on a circular needle or double point needles, knit every round.

SEED STITCH

On the first row * K 1, P 1, repeat from * to end of row. On all subsequent rows, K over the P st and P over the K st.

TO SLIP A STITCH

Whenever the directions specify a sl st, always insert the right hand needle in the st to be slipped as if to P, unless otherwise directed.

MARKERS

When work specifies the use of a marker, use a small round paper clip for this purpose. In working, always slip this marker from one needle to the other.

JOINING YARN

If possible, always join a new ball of yarn at the beginning of a row. When it is necessary to join yarn while working across a row, leave an end about 4 inches long; then work from the new ball of yarn on the next st, also leaving a 4 inch end. After working for 1 inch more, tie these two ends in a square knot, so that tension will be the same as all other sts. When finishing work, run these ends in for 1 inch on wrong side of work.

KNIT-IN DESIGNS

When changing colors, always hold color, which has just been worked, to the left and pick up new color from underneath. This twists colors so there are no holes.

TO WEAVE STITCHES

Thread a tapestry needle with end of yarn. Holding two needles together, wrong sides touching, * insert tapestry needle as if to K

into first st of front needle, draw yarn through this st and slip the st off knitting needle; insert tapestry needle as if to P into second st of front needle, draw yarn through this st and let the st remain on knitting needle; insert tapestry needle as if to P into first st of back needle, draw yarn through this st and slip this st off the knitting needle; insert tapestry needle as if to K into second st of back needle, draw yarn through this st and let st remain on needle; repeat from * until all sts have been worked off knitting needle. Draw up all sts to same tension as knitted sts. Fasten off.

*— this symbol indicates that the directions immediately following are to be repeated a given number of times.

"Work even" means to work without increasing or decreasing, always keeping pattern as established.

FRINGE

Cut strands of yarn slightly more than twice the desired finished length of fringe. Double one or more strands. Insert crochet hook through edge where fringe is to be made and draw through the double strand or strands; draw ends through this loop and pull ends to tighten. Continue across piece to be fringed.

TASSELS

Wind yarn around a cardboard, cut $\frac{1}{2}$ inch longer than size of desired tassel. When yarn is desired thickness for tassel, tie loops together at one end; slip off cardboard and wind yarn around the loops near the top. Cut bottom edge and even off.

POMPOMS

Wind yarn around a cardboard, cut to measure 2 inches, 25 times for heavy yarn and 50 times for fine yarn. Slip off cardboard and tie in centre. Cut loops at each end and shake vigorously. Trim evenly.

TWISTED CORD

Cut strands of yarn 5 times desired finished length. Double this yarn and fasten one end on a hook, so that it is firm. Twist the doubled strands tightly in one direction until it is very firm. Holding the loose end and the end from hook together, allow to wind together. Smooth out any knotted sections. Knot the loose ends.
